Attention: Scott Johnson

Reference: Wildlife Impact Summary - December 1989

Dear Mr. Johnson:

There was one wildlife incident during the month of December. On December 1, 1989, a goldeneye duck was successfully retrieved and revived after having flown into the barren solution pond.

The duck was cleaned, given small amounts of amyl nitrate, and observed throughout most of the day. In late afternoon it was taken to the D.I. pond system and released (flew off).

Yours Very Truly,

TENNECO MINERALS COMPANY
